

Going Green

Forest Park Leisure Centre is the first leisure centre in the country to install a **75kw Vestas Wind Turbine** to provide renewable energy to the centre.

In January 1990 a group of local business people got together and formed Gorey Courtown Development Committee. Their objective was to **create employment** and **develop facilities** for the local community.

They set out to achieve this through the extension of the tourist season in [Courtown](#) with emphasis on a weather-independent and family orientated attractions.
